PROFESSIONAL SUMMARY

Motivated and detail-oriented Frontend Developer with hands-on experience in building responsive and user-friendly web applications. Proficient in HTML, CSS, JavaScript, React.js, and modern frontend technologies. Strong understanding of backend technologies (Node.js, Express.js, MongoDB) and database management. Skilled in Power BI for data visualization and data analysis. Passionate about writing clean code, solving problems, and delivering efficient solutions. Eager to contribute to innovative projects and grow in a dynamic environment in the UK.

TECHNICAL SKILLS

Frontend: HTML5, CSS3, JavaScript (ES6+), React.js, Bootstrap, Responsive Web Design

Backend: Node.js, Express.js

Database: MongoDB, MySQL

Programming Languages: JavaScript, Python (Basic), SQL

Tools & Technologies: Git, GitHub, VS Code, Postman, Power BI, Figma (Basic)

Other Skills: RESTful APIs, UI/UX Principles, Version Control, Agile (Basic)

AI/ML Knowledge (Basic): Understanding of fundamental ML concepts, supervised vs unsupervised learning, classification, regression, clustering, data preprocessing, and model evaluation using Python libraries like Scikit-learn.

PROJECTS

1. Fun2Learn – Interactive Learning Web Application

Aug 2024 – Present

Fun2Learn is an interactive educational platform designed to enhance the learning experience for students.

It offers a modern, responsive interface with user authentication, course browsing, quizzes, and progress tracking.

- Built a fully responsive frontend using React.js with modern UI/UX principles.
- Implemented user authentication and authorization (login/signup).
- Developed features like course listing, detailed course view, quizzes, and progress tracking.
- Integrated RESTful APIs for seamless communication between frontend and backend.
- Backend developed using Node.js, Express.js with MongoDB database.

Tech Stack: React.js, JavaScript, HTML, CSS, Node.js, Express.js, MongoDB

2. QR-based Cafe Management System

Aug 2024 – Present

A QR-based solution for cafes to streamline order management. Customers can scan QR codes to view menu, place orders, and make payments, while admins can manage menus, orders, and reports efficiently.

- Developed a mobile-friendly and responsive web application.
- QR code generation for each table to access digital menu.
- Customers can place orders and make payments through the app.
- Admin panel to manage menu items, orders, and view reports.
- Database management using MySQL.

Tech Stack: React.js, JavaScript, HTML, CSS, Python, MySQL

3. Frontend Web Development Projects

Jan 2024 – Present

A collection of small to medium frontend projects built to strengthen UI development skills and explore modern web technologies.

- Built multiple responsive websites including portfolio, landing pages, and dashboards.
- Focused on clean UI, smooth animations, and cross-browser compatibility.
- Used HTML5, CSS3, JavaScript, and Bootstrap to build responsive layouts.
- Deployed projects using GitHub Pages and Netlify.

Tech Stack: HTML5, CSS3, JavaScript, Bootstrap

EDUCATION

Master of Science in Information Technology

2024 – 2026

Charotar University of Science and Technology, Changa, Gujarat, India

- Currently pursuing postgraduate studies.
- Gaining advanced knowledge in software development, databases, and data analytics.

Bachelor of Computer Application

2021 – 2024

Kadi Sarva Vishwavidyalaya, Gandhinagar, Gujarat, India

- Completed undergraduate degree with a strong foundation in computer applications.
- Studied core subjects like programming, web development, databases, and software engineering.

CERTIFICATIONS

- Deloitte Australia – Data Analytics Job Simulation
- Deloitte Australia – Cyber Job Simulation
- Programming in Java – NPTEL
- SQL (Basic) – HackerRank

TOOLS & TECHNOLOGIES

- VS Code, IntelliJ IDEA
- Git, GitHub
- Figma (Basic)
- Postman
